

iSee PowerHinge

Be One With the Door

The iSEE PowerHinge is a unique cold vault suction display designed to seamlessly integrate into the cooler door. Meant hang on the hinge side of the door, it's the perfect combination of maximum packout and minimal shelf blockage. The metal display has multiple slots to hold various sizes of bottle, can or snack packages and uses iSEE's patented no-fail Displayloc suction technology. Available in three different sizes to fit most any cold vault door.

Features and Benefits

Max Packout

Holds up to 8 25oz cans or
9 16oz cans.

Minimum Blockage

Slim design means display does
not block product on the shelves

Seamless Integration

Fits into standard door sizes for
a clean look that doesn't block
shelf lighting

Flexible Configurations

Comes configured for left-hinge
doors but can be adjusted to hang
on right hinges

Secure Hold

Safely merchandises any bottle,
can or snack size with various
holders available to order

Powerful Suction

Holds up to 50lbs with iSEE's
patented Displayloc suction cups

iSEE™
