

iSEE™ WIRELOC VERT

The **iSEE WireLoc Vert** with Displayloc™ suction cups provides a secure hold on glass cooler doors without the need for a safety hook. These hooks can cause damage to door seals costing time and money. The vertical product configuration minimizes shelf blockage and makes product easy to grab.

Features & Benefits

- Holds a variety of product sizes 12oz to 32oz
- Secure hold with iSEE Displayloc suction cups
- No door damage from unneeded "Safety Hook"
- Minimizes cooler shelf blockage
- Product cradle with rubber bumpers reduces product shake and noise
- Product cradle design makes beverages easy to grab
- Sign channels are easy to load with no need to take display down
